EXAMINER'S AMENDMENT/COMMENTS

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Newly submitted claims 21-27 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claims 21-27 are of different scope due to the introduction of the bus subsystem and bus interface.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-27 would be withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael S. Bush on May 23, 2005. Mr. Bush agreed to cancel claims 21-27 to put the application in condition for allowance.

The application has been amended as follows:

- a. Cancel claims 21-27.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1 and 11 recite, inter alia, an integrated circuit having first and second memory access devices, a memory, a digital processor, a first and second share unit a connected to a first and second external devices as claimed, wherein the first and second share unit are cascaded configuration such that the first share unit alternately couples the first and second memory access devices and the second share unit alternately couples the first share unit and the interface device to the memory.

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kim Huynh whose telephone number is (571) 272-4147.
